One Bus, Many Possibilities

At just 7 metres, the Yutong D7E combines operational flexibility, passenger comfort, and reliable performance all in one compact, zero-emission package. With seating for up to 28 passengers, its compact footprint and exceptional manoeuvrability make it ideal for tighter routes, and narrow roads. Inside, a quiet, comfortable cabin creates a refined journey for every passenger, while advanced battery electric technology and class-leading safety features give operators confidence on every route.

D7E — Full specifications
